## General Information

### Description

A study of End Times according to the Bible.

### Expectations and Goals

The purpose of this study is to gain knowledge of events leading to the current End Times. Biblical Prophecy has predicted events that have been fulfilled and this study will give us insights on those prophecies. In addition, we will learn about current events that have been fulfilled in the past three-quarter centuries that provides evidence for the fulfilling of future Biblical prophecies, especially as they relate to what the Book of Revelation refers to as The Tribulation. During our time together we will discuss events leading to the very end, for example... The Tribulation, The Second Coming, The Antichrist, The Millennium and The Eternal State. We will define key terms and review various interpretations related to the topic of End Times. Let's dive in!
